

Curriculum Vitae Justyna Wozniak

Occupation

since 06/2022

Data Scientist and Project Manager at the Institute for Clinical Pharmacology, University Hospital Aachen/Germany (Group of Prof. Dr. Julia Stingl).

03/2021- 05/2022

Postdoc at the Institute of Molecular Pharmacology, University Hospital Aachen/Germany (Group of Prof. Dr. Andreas Ludwig).

02/2021

Dissertation at the Institute of Molecular Pharmacology, University Hospital Aachen/Germany (Group of Prof. Dr. Andreas Ludwig);
Titel: "Cell-specific role of ADAM10 and ADAM17 in acute and chronic kidney inflammation".

11/2014 – 10/2020

PhD student at the Institute of Molecular Pharmacology, University Hospital Aachen/Germany (Group of Prof. Dr. Andreas Ludwig);
Project: Investigation of the role of the metalloproteinases ADAM10 and ADAM17 in renal inflammation.

Academic education

10/2013 - 09/2014

Master's thesis at the Institute of Biochemistry and Molecular Biology, University Hospital Aachen/Germany (Group of Prof. Dr. Bernhard Lüscher); Title: "Regulation and Function of ARTD10 in Cell Proliferation Control".

10/2012 - 09/2014

Master's programme in Biology, in-depth module: Molecular and Cellular Biology, RWTH Aachen/Germany.

11/2011 - 08/ 2012

Bachelor's thesis at the Institute for Applied Medical Technology, University Hospital Aachen/Germany (Group of Prof. Dr. Stefan Jockenhövel); Title: "Influence of different fibrinogen isolation methods on the production of autologous fibrin gels with regard to microstructure, biocompatibility, cell growth and extracellular matrix formation".

10/2009 - 08/2012

Bachelor's degree programme in Biology, RWTH Aachen/Germany.
